

BIOLOGICAL PHYSICS PAPERS IN PHYSICAL REVIEW E

Physical Review E welcomes biologically inspired physics papers for publication in the section on Biological Physics. In keeping with the general policy of *Physical Review*, appropriate papers should report new results, which may involve one or more of the following:

- (i) advances in fundamental physical understanding of biological systems.
- (ii) new physical phenomena in a biological system.
- (iii) better theoretical and experimental methods for physical analysis of biological data.
- (iv) new physical instrumentation relevant to biology.

We will, of course, be happy to answer specific questions regarding appropriateness of particular papers. Please feel free to contact any of the editors.
