

TO ORDER REPRINTS

APS partners with the Copyright Clearance Center (CCC) to offer our authors an online web-based interface, RightsLink, for ordering reprints and paying various author charges.

After a manuscript has been accepted, the author is sent a link to access the RightsLink service. Authors are asked to use this link to order reprints and obtain associated prices. For authors' convenience and to minimize delay, the RightsLink system accepts payment by major credit card. For those who require invoices to make payment, the system offers this option as well.

Among the author services available on RightsLink, an author may also elect to make a manuscript 'Open Access', i.e., available to all readers at no cost and without a subscription.
